EV TEKSTİLİ AKSESUARLARI | HOME TEXTILE ACCESSORIES | ДОМАШНИЙ ТЕКСТИЛЬ АКССУАРЫ

sel®

Sel Perde ve Tekstil Aksesuarları A.Ş. 1974 yılında kurulmuştur. Perde sektörünün aksesuar ihtiyacını karşılamak amacıyla kurulan firmamız; uzun yıllara dayanan deneyimiyle müşterilerimize başlangıçtan, bu güne kadar kaliteli ürün ve hizmet sunmayı ilke edinmiştir.

Ev tekstilinde güzelliğin ve estetiğin yansımaları ancak aksesuarlarla mümkündür. Bu bakış açısından yola çıkarak, ilerleyen yıllarda salonlarda, oturma odalarında, yatak odalarında, mutfaklarda yani yaşadığımız tüm mekânlarda yüzlerce ürün çeşidimizi kullanarak estetik ve bütünlük için asıl olan aksesuarlarımız ev tekstilinde vazgeçilmezler arasına girmiştir.

Firmamız saçak çeşitleri, ponpon, püskül, braçol, rustik, ekstrafor, metal, plastik ve ahşap aksesuarlar, perde ağırlıkları, perde mekanizmaları (makine ve el işçiliği) gibi yüzlerce ürün çeşidini bünyesinde toplamıştır.

Ürünlerimizde el işçiliğine dayalı, devamlı yenilenen çeşitlerimiz büyük beğeni kazanmaktadır.

Sel Curtain and Home Textile Accessories is located in Sultanhamam – Istanbul and has been very enthusiastic to share experiences for over 40 years in curtain accessories.

Since establishment, our company has been providing the latest developments in home textile and finding the quickest solutions by meeting the needs of our customers.

YAPI MALZEMELERİ

- Beton
- Dolu tuğla
- Gaz beton
- Panel malzemeler
- Doğal taş
- Yonga levha

ÖZELLİKLER

AVANTAJLAR

- İki bileşenli yapısı ile en yüksek yük seviyelerine ulaşır ve duvar cinsine göre çalışma prensibini kendi belirler.
- Özel yapısıyla delik içine kaçmaz.
- Kısa dübel uzunluğu derin delme işlemlerini önleyerek hızlı montaj sağlar.
- Dişli yapısı sayesinde montaj esnasında delik içinde dönmez

UYGULAMALAR

- Tv konsolları
- Aydınlatma
- Raflar
- Aynalı dolaplar
- Posta kutuları
- Tablolar
- Jakuziler
- Dolaplar

Kimyasal dübel FISV

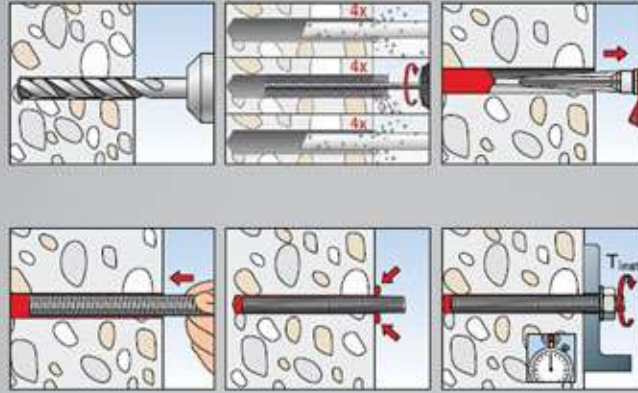

52.0315.00

AVANTAJLAR

- FIS V çatlaklı ve çatlaksız beton ve donatı çelik bağlantıları gibi çeşitli sistem onaylarına sahiptir.
- FIS V vinil ester harcın içindeki yapıştırıcı +120 dereceye kadar yüksek sıcaklıklara dirençlidir.

- Kimyasal dübel FISV için geniş kapsamlı aksesuarlar ideal biçimde kullanılabilir. Sisteme büyük esneklik kazandırır ve çok çeşitli uygulamalara izin verir.
- Islak/su dolu deliklerde onaylıdır ve güvenle kullanılır.
